To empower investors globally by providing secure, innovative, and performance-driven Forex investment solutions while upholding the highest standards of transparency and client trust.

To be recognised as a leading trusted Forex investment management company, known for consistent results, ethical practices, and technological excellence in global financial markets.

Multi-strategy portfolios combining technical analysis, fundamental insights, and AI-driven algorithmic systems.

Strict capital preservation principles, limiting exposure per trade to a small percentage of total managed funds.

Diversified currency pair selection, reducing concentration risk and enhancing ROI potential.

Automated stop loss and take profit mechanisms to protect client capital in volatile market conditions.

Daily and weekly risk assessments conducted by our trading and compliance team to adapt strategies proactively.

With over 10 years in the Forex trading and investment management industry, Michael brings deep expertise in high-frequency trading, portfolio structuring, and global financial compliance.

An operations specialist with extensive experience in financial services administration, KYC compliance, and client relations. She oversees daily business processes.

Leads the trading team, specialising in market analytics, algorithmic strategy design, and risk control protocols, ensuring capital protection objectives.

FXBOT is incorporated under St. Vincent & the Grenadines, with registration number HE-543752. We operate as an international investment solutions provider, complying with local and international business regulations, anti-money laundering standards, and KYC policies to maintain client security and operational integrity.
